

DREXEL UNIVERSITY

UNDERGRADUATE TRANSFER NURSING PROGRAMS

The greatest number of baccalaureate nurses in Pennsylvania graduate from Drexel University.

Our nursing programs offer intensive immersion in nursing science through various curriculum options for students, with experiential learning opportunities woven throughout. With a 2021 National Council Licensure Exam (NCLEX-RN) pass rate of 93.7 percent, a network of expansive clinical affiliations, innovative curricula, and distinguished faculty, Drexel's nursing programs have more than just classes to offer.

Bachelor of Science in Nursing — 3-Year, 1 Co-op Option

This 3-year nursing program is full-time and takes place on campus, similar to our 2-year program for transfer students. This program requires less prerequisite courses needed before the program starts, allowing students to transfer in earlier and get a jump-start on their Drexel education. Applicants do not need to have all of the following college-level prerequisites completed before applying to the nursing program, but these prerequisite courses must be completed before starting the nursing program at Drexel:

- Anatomy and Physiology I and II with labs
- General Chemistry I and II with labs
- Microbiology with lab
- English I and II
- General Psychology
- College Algebra
- Sociology (Intro to Sociology)
- Foreign Language

For more information on these program options, contact enroll@drexel.edu or visit drexel.edu/undergrad/ace.

Bachelor of Science in Nursing — 2-Year Program

This full-time, on-campus nursing program allows students to transfer in and complete their BSN in two years. Applicants do not need to have all of the following college-level prerequisites completed before applying to the nursing program, but these prerequisite courses must be completed before starting the nursing program at Drexel:

- Anatomy and Physiology I and II with labs
- General Chemistry I and II with labs
- Microbiology with lab
- College Algebra
- English I and II
- Developmental Psychology
- General Psychology
- Ethics
- Nutrition
- Statistics
- Sociology (Intro to Sociology)
- Humanities Elective
- Social Science Elective
- Foreign Language
- 3 Free Elective Courses

RN to BSN Completion Program

If you already have an associate's degree or diploma in nursing, this online program is the ideal way to complete your BSN. You will take part in virtual simulated patient experiences, problem-based learning, and discussions with other practicing nurses from around the nation.

In addition to your nursing courses, you must complete at least 16 hours of the following prerequisites:

- English (includes one semester of composition): 3 hours
- Humanities (studio courses are not accepted): 3 hours
- Anatomy and Physiology: 8 hours
- Microbiology: 4 hours
- Sociology: 3 hours
- Psychology: 3 hours
- Developmental Psychology: 3 hours

Students must also have:

1. RN licensure (provisional admission will generally be offered pending successful completion of NCLEX-RN exam prior to enrollment)
2. Official college transcripts
3. College GPA of 2.0 or better
4. High school degree or equivalent
5. Completed 60 hours of college prerequisites with a grade of "C" or better. You may transfer up to 90 semester credits. Remaining credits will be evaluated on an individual basis. To graduate, students will need to have completed 180 quarter credits.

For more information, contact DUonline@drexel.edu or visit online.drexel.edu/online-degrees/nursing-degrees/rn-bsn.

Accelerated Career Entry (ACE) BSN Program

If you have a bachelor's degree in another field and are looking to change careers, our intensive Accelerated Career Entry (ACE) BSN program can allow you to receive your BSN in only 11 months. The following are prerequisites for the program:

- Bachelor's degree in another discipline
- English: 3 semester credits
- Developmental Psychology (life span): 3 semester credits
- Human Nutrition: 3 semester credits
- Statistics: 3 semester credits
- General Chemistry I with lab*: 4 semester credits (Science or Allied Health Majors)
- Anatomy with lab or Anatomy and Physiology I with lab*: 4 semester credits
- Physiology with lab or Anatomy and Physiology II with lab*: 4 semester credits
- Microbiology with lab*: 4 semester credits

**Anatomy and Physiology I and II and either Chemistry or Microbiology must be completed at time of application. Anatomy, Physiology, and Microbiology required to have been taken within the last five years; all other prerequisites are required to have been taken within the last 10 years.*
